

SendZap

Send message without saving number.

VERSION 1.3.0

Message anyone on WhatsApp — without saving their number.

Type a number, pick a saved template, tap send. SendZap opens the WhatsApp chat instantly and keeps your contact list clean. No account, no login, no server — everything stays on your device.

CORE FEATURES

No-Save Messaging

Enter any number and jump straight into a WhatsApp chat. Your address book never gets cluttered with one-time contacts.

62-Country Code Picker

Searchable list with flags and dial codes. Your last-used country is remembered automatically for the next send.

6 Custom Templates

Save your most-used messages once. Tap to select, hold to edit, delete anytime — reuse them in a single tap.

Privacy by Design

No account, no login, no SendZap server. Numbers, messages and templates never leave your phone.

Works Offline

Uses a native WhatsApp deep link that opens without internet, with an automatic wa.me web fallback if needed.

Phone & Tablet Ready

Responsive layout adapts from a 3-column phone grid to a 4-column tablet grid, on both Android and iOS.

HOW IT WORKS — 3 TAPS

1

Pick country & number

Choose the dial code and type the recipient's phone number.

2

Select a template

Tap any saved message, or write a fresh one in seconds.

3

Send Message

WhatsApp opens with the chat and text already pre-filled.

Full Feature List

Everything included in SendZap 1.3.0

FEATURE BREAKDOWN

FEATURE	WHAT YOU GET
Contact-free messaging	Open a WhatsApp chat with any number without adding it to your contacts.
International dialing	62 countries with flag, name and dial code; live search by name or code.
Remembered country	Your chosen country persists between sessions — set it once, forget it.
Message templates	6 reusable slots, each with a custom name and full message body.
Create & edit	Tap an empty slot to create; press and hold a template to edit it.
Delete with confirmation	Remove a template from the editor, with a confirm prompt so nothing is lost by accident.
Smart send button	Stays disabled until a valid number and a template are both selected.
Offline deep link	whatsapp:// link opens the app directly, even with no connection.
Automatic fallback	Falls back to wa.me, then shows a clear message if WhatsApp isn't installed.
WhatsApp & Business	Works with both personal WhatsApp and WhatsApp Business accounts.
Local-only storage	Country and templates saved on-device; uninstalling erases them permanently.
Built-in help centre	Step-by-step Help guide, 8-question FAQ, Privacy Policy, Terms and About.
Consent-aware ads	Google UMP consent flow runs before any ad loads, for GDPR compliance.
One-tap support	Email the team or copy the support address straight from the Help screen.
WhatsApp-native dark UI	Familiar dark theme built around WhatsApp's signature green.

WHY USERS CHOOSE SENDZAP

Privacy you can verify

- ✓ **No sign-up** — no email, phone verification or password.
- ✓ **No SendZap server** — nothing is uploaded, ever.
- ✓ **No chat access** — the app can't read your WhatsApp messages.
- ✓ **No contact permission** — your address book is never touched.
- ✓ **Your data, your control** — clear storage or uninstall to erase everything.

Built to stay out of the way

- ✓ **Under 10 seconds** from opening the app to a sent message.
- ✓ **Zero learning curve** — one screen, no menus to hunt through.
- ✓ **Free forever**, funded by a single unobtrusive ad slot.
- ✓ **Android & iOS** from the same polished codebase.

MADE FOR

Sellers

Reply to buyer enquiries without saving every lead.

Business Teams

Send quotes and follow-ups with saved templates.

Delivery & Field

Message customers once, then move on.

Everyone

One-off chats that don't deserve a contact entry.
